I heard your mom
was abandoned

They say she was
picked up off the side
of the north road.

You know what
that makes you and
your sister? Orphans -
because you're children
of an orphan

Proably

the term "orphan"
applies to those who
are parentless.

the existence of
grandparents has no
bearing on the matter

Sincerely, your
brother's academic
future

has nothing to
do with my family

So, cause the
meaningless explosion
of emotion

YOL...!

DON'T TALK SO HIGH
AND MIGHTY WHEN YOU
CAN'T EVEN DRINK MILK!

Argh, it's
raining!

I forgot my umbrella!

Re...

COUGH

My lung was punctured.

If I could access the power of the Dragon Pearl, I could heal him!

This binding collar!

Because of this

Because...

of this wretched
binding collar!

Scared...

I need the blood...

Once everything
is over...

I need—I need to
stop the bleeding!

Once everything is over,
move back to
our hometown...

beneath the tranquil sky and calm winds.

Is a place without
opposition or oppression,
you'll laugh at
the simple things

and be grateful for
each day that passes

In a place where having
consideration for one
another is only natural

Yes.

that suits you best.

CLACK

If a Rhymer becomes unstable, it affects the Dragon. If the Dragon exerts power during that instability and goes berserk,

Humans can't do anything about it.

This ought to be a good opportunity to evaluate the usefulness of this human.
